

## **RIIWH302D Implement Traffic Management Plan**

Construction Training International is a Registered Training Organisation delivering Nationally Accredited training. We have a commitment to helping people achieve their learning goals, in a fun and supportive learning environment.

Construction Training International provides specialised industry training for anyone considering a career and employment within the Construction industry.

### **How Can Training Benefit You?**

- A Nationally Accredited qualification upon successful completion of the course
- Fun and flexible delivery of training and assessment by experienced industry trainers and assessors
- The opportunity to choose a career path through accredited qualifications
- Learning of new skills
- Develop your existing skills further, or have your existing skills recognised with a nationally accredited qualification
- Meet new people and gain confidence in your employment skills!

### **What Will I Receive Upon Completion?**

A Statement of Attainment will be issued by CTI for the unit of competency completed.

### **What Content is covered in the Training?**

This course describes the skills and knowledge required to implement a Traffic Management Plan for the works on roads ensuring traffic flow is maintained and risk to the public and workers is minimised.

### **Unit**

Participants need to complete one unit consisting of:  
Implement Traffic Management Plan

### **Who Can Undertake the Training?**

Students are required to be over 18 years old, competent in written and spoken English and will undertake a Language, Literacy and Numeracy test prior to commencing the training.

### **A CTI requirement for this course is:**

CONTROL TRAFFIC WITH A STOP/SLOW BAT: RIIWH302D

### **How Often is the Course Run and What is the Duration?**

This course is delivered over 8 hours in one session.

Courses are run regularly throughout the year. Please speak directly to Construction Training International for exact course dates.

Normal operating hours are 7.30am - 3.30pm.

### **How is the Course Trained and Assessed?**

Training and assessment will take place in RTO's training rooms by a qualified Trainer monitoring your progress.

The course is delivered with both theory and practical elements and is completed via a simulated work environment. The delivery of training will include a mixture of classroom delivery, group discussions and individual research.

Assessment is used to provide you with feedback on your progress and to measure your skills and knowledge against the training qualification requirements and those of the industry. The assessment process may include written questions, case studies and practical demonstrations.

### **How Much Will it Cost?**

Fees are \$220 per student (including resources)

### **How do I Enrol?**

Easily!

Simply complete the following steps and you could be on your way to completing nationally accredited training.

1. Read and understand the information contained in the Student Information Booklet
2. Select the course of study you wish to undertake and complete the Enrolment Form.
3. Sign the Enrolment Form to show that you understand all of the information provided, and return the Enrolment Form and return to RTO with the tuition payment.
