Course Brochure

Front End Loader

NATIONALLY RECOGNISED TRAINING

Course Information

This course contains the Unit: **RIIMPO321F Conduct civil construction wheeled front end loader operations.** This unit describes the skills and knowledge required to conduct wheeled front end loader operations.

This unit alone does not provide sufficient skill to independently load and unload equipment. To perform this activity safely, personnel must either complete or be assisting someone who has completed RIIHAN308F Load and unload plant or equivalent.

Our course has been designed for students that:

- Have some construction/ resources & infrastructure industry experience
- May have had limited prior formal training in construction

The course is delivered at 1164 Kilmore Road Riddells Creek, Victoria, 3431. There is plenty of parking on site, and a café too!

Duration

This course is scheduled over 3 consecutive days (8 hours each day). This is a total of 24 student contact hours.

All students will be required to undertake pre-learning to ensure an understanding of some learning content that will be reviewed in the student contact time.
Students should allocate approximately 8 hours to read over the pre-course reading.

Unit Entry Requirements:

There are no specific entry requirements for this Unit of Competency.

RTO Admission Requirements:

CTI has the following admission requirements to suit the delivery and assessment mode offered:

- Students must be over 18 years old
- Students must undertake a Language, Literacy and Numeracy test prior to enrolment. To gain entry into this course, student must have been determined as having the appropriate LLN capability.
- This program has been designed to be delivered through classroom based delivery and students must have the ability to attend the scheduled sessions as per the timetable. Students are to be informed of the timetable on enrolment and must maintain the required student contact hours.
- Students are required to wear PPE as listed on the Course Flyer
- All students will be required to undertake approximately 8 hours of pre-course reading/ activities to ensure an understanding of the learning content that will be reviewed in the class contact time.
- Where the course is to be delivered Offsite (i.e. a student's workplace), an 'Offsite Checklist' will need to be completed to determine if the site has the appropriate equipment and facilities for the training and assessment to be conducted.

Training and Assessment Processes
This program is to be delivered in a classroom-based environment and in simulated work environment at the RTO's site (to provide access to appropriate environments for the practical components of the course).

The Unit of Competency assessment process includes: Student Guide (pre-course study), Written and Practical assessment.

Course Fees
The cost of the course can be found on the Price List. This can be accessed via the CTI website or by contacting the CTI Student Administration Department.

Course Completion
Where students successfully complete the Units of Competency in the course, they will be issued with a nationally recognised Statement of Attainment. *(Please note: For a Statement of Attainment to be issued, the student must have a USI number).*

Enrolment Process
Contact CTI to book into the course. You will be provided with an Enrolment Form and Pre- Enrolment Review (including an LLN Test). Once CTI has determined that you have the required abilities to undertake the course, you will be given access to the pre-course reading and activities.
